

The Sundre Daycare Centre (SDC) is currently seeking monetary donations to improve the quality of care provided to children in the Sundre community for the upcoming year. The SDC is a non-profit organization which strives toward a standard of excellence in childcare with a focus on quality, affordable and accessible care. At the SDC, we are more than daily childcare in a safe and trusted environment. The SDC is also a staple in the Sundre community, and an important opportunity for early education and early connections for children to assist with their transition into the school system.

Currently, we provide childcare for 71 families in the area and 104 children. In the summer of 2022, through grants and generous donors, the SDC was able to offer amazing summer programming. This summer programming included eight field trips to different locations including; Cobbs Adventure Park, Heritage Park, and the Royal Tyrrell Museum. The transportation costs alone for these trips was over \$900 per trip. We also provide enriching activities for the children through collaborations within our community. Throughout the summer, the 5+ age group visited Sundre Aquaplex for public swimming seven times and they will be visiting the pool for more swimming this November and December. This fall/winter, our preschool program has been enjoying attending gymnastics via the Sundre Gymnastics Club for eight weeks. Swimming and gymnastics are offered to children in our care at no additional cost to families.

We would love to plan more summer adventures and community collaborations for 2023, but we will need monetary donations from our community to continue to ensure these trips are affordable and accessible for every family.
